

# Maxwell Jones

Junior Web Developer

## 👤 About Me

I currently work in Film and Television and have done so for the past 4 years. In this time I've grown a large passion for the world of tech, Web Development in particular. For the past year I've been self-taught and am now more eager than ever to grow my skills further in a professional environment.

## 📁 Experience

<https://ecommercestore-mj.netlify.app/>

An Ecommerce store with complete cart functionality minus payment implementation. React State and local storage were used for the cart system. This project taught me a lot about React, some of these include - State, custom Hooks and React-Router.

<https://mapboxweatherapi-mj.netlify.app/>

A Weather App that takes a destination (users input) and converts it to longitude and latitude. From here the information is then fetched from an API (temperature, location name ect) and returned on a map marker for display.

<https://farrugiadesign.netlify.app/>

An interior design website i created for a family member. This project was my introductory to React and showed me the world of NPM modules, some i used on this project were, Material UI, React Router DOM, SweetAlert, EmailJS, SlickCarousel.

## 📁 Current Employment

**Presentation Coordinator at Fox Sports, Sydney**

June 2018 — Present

Fast-paced, time-critical environment where we aim to deliver a multitude of LIVE sports from all over the globe.

-Strong verbal and written communication skills

-Swiftly adapting to the implementation of new technologies (automation systems)
